

What Every Parent Needs to Know¹

Autism was unknown before 1943, but in 1980 1 in 10,000 children were autistic, and now it is 1 in 50². But this is only the tip of the iceberg. **17% are now developmentally disabled³ and 27% have chronic disease and disorders!⁴** It is not uncommon to encounter “normal” persons with symptoms of brain damage. Even if your child seems normal, he could be damaged. To protect your child, read on.

The science of **vaccines** is certainly valid when properly applied, but in evil hands can you imagine a more fearsome weapon? 1) The Philippine Supreme Court ruled that UNICEF sterilized⁵ 3 million women with vaccines without their knowledge, 2) The same was done in Africa⁶, 3) Baxter sent H1N1 vaccine contaminated with live bird flu virus to 18 countries.⁷ 4) Strong evidence is that vaccines cause brain damage and autism⁸.

14 babies in Argentina died right after participating in a vaccine trial⁹, and many children were paralyzed after vaccines in Chad¹⁰. **They denied the vaccines were the cause.**

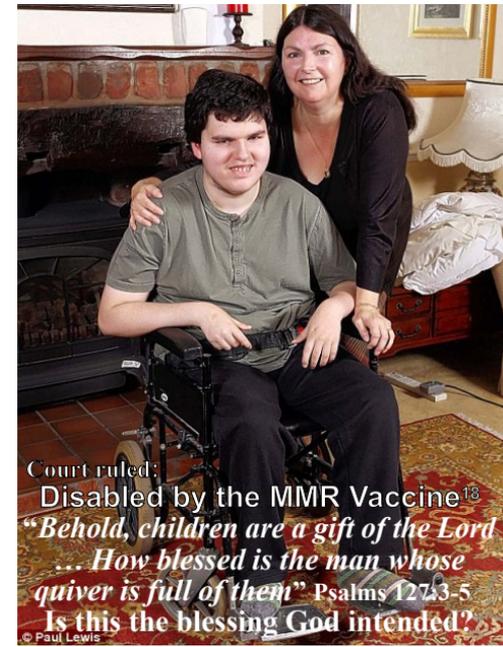

I am sure the vast majority of participants are simply trying to do good and earn a living, honestly believing vaccines are beneficial. On the other hand the **Georgia Guidestones**¹¹ state: “Maintain humanity under 500,000,000 in perpetual balance with nature.”, **The**

elimination of 6.5 billion of us will not happen without purposeful action.

By the **Theory of Evolution** there is no personal God and humans are mere animals. Like exterminating excess deer from an overgrazed forest, excess humans must be removed from the earth. The Georgia Guidestones tell us what the powerful elite of the world have planned¹², and are actually doing right now in many varied ways. No doubt they believe their actions are noble, so that all (who survive) will live in quality and abundance.

For the HPV vaccine (Guardasil, etc., to prevent cervical cancer), serious adverse events appear to exceed the rate of cervical cancer, and over 100 deaths have been reported after it¹³. Moreover, it is very similar to a patent for sterilizing mammals¹⁴ and women have been reported with all their eggs dead¹⁵ following it.

They claim “the cause of autism is unknown”, but autism was unknown among the Amish before vaccinating their children¹⁶. There are 100's of testimonies on the Internet where parents affirm that their child was healthy and happy until vaccinated. Dr. Toni Bark affirms of hundreds of unvaccinated patients:¹⁷ **“I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis-none of these ... the kids with chronic illness are the kids who were vaccinated.”** Such huge differences are irrefutable evidence

Court ruled:
Disabled by the MMR Vaccine¹⁸

... How blessed is the man whose
quiver is full of them” Psalms 127:3-5**

against vaccines and by the mathematical theory of probability **cannot be coincidence.**

What could be worse than the tragedy of autism, or any brain impairment, such as learning and emotional disabilities, mental retardation, hyperactivity, visual and hearing loss, epilepsy, etc., depending on the severity and part of the brain damaged. The 40-plus doses recommended by the CDC are most certainly excessive, and if they were to cause such damage to your child, then surely the risk of the diseases would have been better.

Mercury is extremely toxic (more than lead), especially to the nerves and brain. The EPA says 0.1µg of mercury per kg of body weight is the maximum daily safe amount¹⁹. A 0.25ml multi-dose Fluzone shot contains 12.5µg of mercury²⁰. 5% of 6-month-old boys weight 6.5 kg or less, resulting in at least 12.5µg/6.5kg = 1.95µg per kg of body weight, or **19.5 times the safe amount**, and could be worse for multiple shots. What rational person can say this is not dangerous? Since dose is not adjusted for body weight, **a 3-year old child receives 11 times** the concentration **as a 300 pound man**.

Mercury is now much reduced in many vaccines. Instead, a two-month old baby receives 1,225µg of **neurotoxic aluminum, 50 times the safe level**²¹ and autism continues unabated.

A newly discovered contributing factor is that **glyphosate**²² (Roundup), which increasingly contaminates food, reduces the body's ability to eliminate toxins, rendering one much more susceptible to vaccine damage.

I am not a doctor so nothing in this article can be considered medical advice, but if I had a child see here²³ what I would do to protect him, and get a **vaccine exemption**²⁴.

Study the evidence and think for yourself. Then protect yourself and yours and warn others, as I am sure it will not be stopped. Good vaccine websites: childhoodshots.com, ageofautism.com, marytocco.com, nvic.org,

There can be little hope in the world system, but most important of all, the salvation of your eternal soul is a personal matter between you and God and does not depend on rites, traditions, human effort, or belonging to any church, religion or organization: *“For by grace you have been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works...”* Ephesians 2:8-9 No matter what kind of person you are or what you have done: *“If we confess our sins, He is faithful and righteous to forgive us our sins and to cleanse us from all unrighteousness.”*

1 John 1:9 Pray today to put your faith in Jesus Christ alone: *“For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life.”* John 3:16 Then study the Bible to live in obedience to God: *“...if anyone is in Christ, he is a new creature; the old things passed away; behold, new things have come.”* 2 Corinthians 5:17
