

To Physicians¹

harbingersofthepocalypse.com/p

Autism was unknown before 1943, but in 1980 the rate was 1 in 10,000, and now it is 1 in 50². But this is only the tip of the iceberg. 16% of children are developmentally disabled³, and 27% have chronic disease⁴. **Everything has a cause!**

It seems to me unlikely that with advanced technology they could still claim “the cause of autism is unknown”⁵. It is absurd to blame genetics⁶ or prenatal factors because our forefathers would have suffered the same, and it would not have increased 16% per year since 1980.

In contrast, Dr. Toni Bark affirms that of hundreds of unvaccinated patients:⁷ ***“I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis—none of these ... the kids with chronic illness are the kids who were vaccinated.”*** Such huge differences are irrefutable evidence against vaccines⁸ and **cannot be coincidence.**

The science of **vaccines** is certainly valid when properly applied, but in evil hands can you imagine a more fearsome weapon? 1) The Philippine Supreme Court ruled that UNICEF sterilized⁹ 3 million

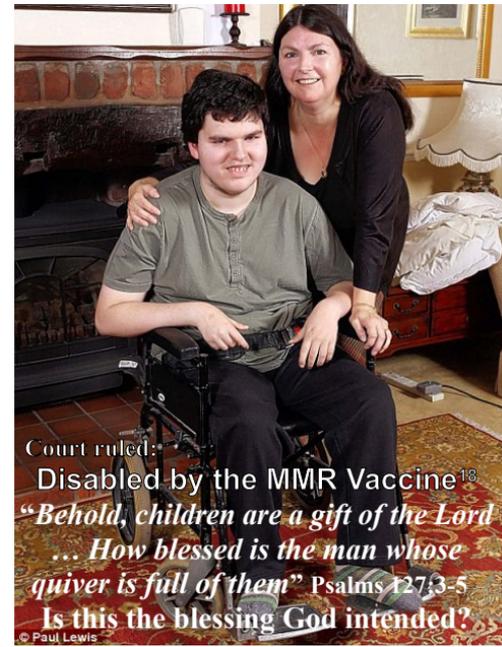

women with vaccines without their knowledge, 2) The same was done in Africa¹⁰, 3) Baxter sent H1N1 vaccine contaminated with live bird flu virus to 18 countries.¹¹

14 babies in Argentina died right after participating in a vaccine trial¹², and many children were paralyzed after vaccines in Chad¹³. **They denied that the vaccines were the cause.**

Mercury is extremely toxic (more than lead), especially to the nerves and brain. The EPA says 0.1µg of mercury per kg of body weight is the maximum daily safe amount¹⁴. A 0.25ml multi-dose Fluzone shot contains 12.5µg of mercury¹⁵. 5% of 6-month-old boys weight 6.5 kg or less, resulting in at least 12.5µg/6.5kg = 1.95µg per kg of body weight, or **19.5 times the safe amount**, and could be worse for multiple shots. What rational person can say this is not dangerous?

Mercury is now much reduced in many vaccines (but not the flu vaccine). Instead, a two-month old baby receives 1,225µg of **neurotoxic aluminum, 50 times the safe level**¹⁶ and autism continues unabated.

A newly discovered contributing factor is that **glyphosate**¹⁷ (Roundup), which increasingly contaminates much food,

reduces the body's ability to eliminate toxins, rendering one much more susceptible to vaccine damage.

I am sure the vast majority of participants are simply trying to do good and earn a living, honestly believing vaccines are beneficial. On the other hand the **Georgia Guidestones**¹⁹ state: “Maintain humanity under 500,000,000 in perpetual balance with nature.”, advocating the elimination of 7 billion people. **This will not happen without purposeful action.**

So, what is your response? You could do the same as Dr Bark by comparing vaccinated with non-vaccinated patients, either by accepting non-vaccinated patients, or by teaming up with a doctor who does. Once you have a large enough sample, you will have your own proof of the truth.

For patients who choose to vaccinate, insure that patients are first well nourished and have an abundance of vitamin C²⁰ and vitamin D₃²¹ since these have been shown to protect against vaccine damage.

Since dose is not adjusted for body weight, **a 3-year old child will receive the same dose as a 300 pound man**, an **11-times concentration** in the child. How well would the 300 pound man do with 11 flu shots at once? Since vaccines are highly toxic, this is insane. To minimize damage, you could administer vaccine doses proportional to weight. This is what veterinarians do.

These steps should reduce vaccine damage by a very large factor and you should sleep better, seeing much improved health in your patients.

See cdautism.org for how 164 children so far are cured of autism. I know all this is very contrary to what you have been taught, but **if you want to know the truth**, examine

the evidence and **think for yourself**. See my 100+ page presentation on my website.

There can be little hope in the world system, but most important of all the salvation of your eternal soul is a personal matter between you and God and does not depend on rites, traditions, human effort or belonging to any church, religion or organization: *“For by grace you have been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works...”* Ephesians 2:8-9 No matter what kind of person you are or what you have done: *“If we confess our sins, He is faithful and righteous to forgive us our sins and to cleanse us from all unrighteousness.”* 1 John 1:9 Pray today to put your faith in Jesus Christ alone: *“For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life.”* John 3:16 Then study the Bible to live in obedience to God: *“...if anyone is in Christ, he is a new creature; the old things passed away; behold, new things have come.”* 2 Corinthians 5:17
