

What Every Parent Needs to Know¹

Presentation Outline

harbingersoftheapocalypse.com/p

The complete presentation can be viewed at this website. If you would like us to present it to your church, home or other group, please e-mail us from the website .

1. This is an appropriate subject for a church group because we are to:
 1. Discern the signs of the times,
 2. Be wise,
 3. Minister to the whole man,
 4. Warn others of danger.
2. Autism is a **huge tragedy**, but only the **tip of the iceberg**, because there is a large amount of lesser brain damage and chronic disease.
 1. It is not uncommon to observe “normal” persons who have symptoms of brain damage.
 2. Even if your child seems normal, he could be damaged.
3. If you trust government and big business, this is likely to challenge your world view.

4. I support scientifically valid medicine, and only oppose medicine misused.
 1. Properly applied, the science of vaccines is certainly valid.
 2. But there is much evidence of apparent intent to harm, and much harm caused by vaccines.
5. Have vaccines in general historically been effective? The data says *no*.
6. What is the motivation?
 1. Surely most participants are only striving to do good and earn a living.
 2. Money is obviously a motivation since there are huge sums at stake
 3. But it seems clear that there is a also a hidden motive by the powerful elite to reduce the earth's population by a large percentage.
 4. This should not surprise us since “... *the whole world lies in the power of the evil one.*”
7. Consider a few specific vaccines to see if they are useful.
 1. Hepatitis B vaccine

2. Rotavirus vaccine
3. Mumps, measles, chicken pox
4. Flu vaccine
5. Wouldn't any of the diseases be better than autism?
8. Implications of different kinds of brain damage
 1. Damaged intelligence
 2. Damaged sight
 3. Damaged speech
 4. Hyperactivity
 5. Damaged conscience
 6. Damaged capacity for love and compassion
 7. Could these be at the root of many of the ills of society?
9. The Reality
 1. From a flu shot, a 6-month-old can receive **19 times** the safe amount of mercury.
 2. Because they are given the same dose, a 3-year-old can receive **11 times** the concentration of toxins as a 300-pound person.
 3. Though mercury has been reduced in many vaccines, instead a two-month old baby can now receive

50 times the safe level of neuro-toxic aluminum.

4. The herbicide glyphosate (Roundup) now used on many crops and contaminating much food reduces the body's ability to defend against toxins, making one more susceptible to vaccine damage.

5. There is now emerging evidence of fraud in earlier vaccine studies.

10. Dr. Toni Bark affirms that of several 1000 unvaccinated patients: *"I don't have one child who was not vaccinated ..."* "who has chronic disease.

11. Enforcement of deceit in society

12. Limits to the Immune System

13. Vaccine damage can send you to prison

14. Recent news.

15. Protection

1. Healthy nutrition

2. A Texas vaccine exemption

3. Other precautions

16. Minimizing damage if you are forced to vaccinate.

17. If the damage is already done

1. See www.cdautism.com

2. High quality vitamins and probiotics may help

18. You must study the evidence for yourself and come to your own conclusions based on the evidence

1. I am sure it will not be stopped.

2. Some good websites.

19. The ultimate protection is the salvation of your eternal soul by faith in God.
