

Vaccine Roulette

HarbingersOfTheApocalypse.com/p

Why is one child horribly damaged and another *apparently* not by the same vaccines?

That vaccines cause damage is beyond dispute because the US "Vaccine Court" has awarded more than **\$3 billion**¹, likely much less than what is really deserved².

There are hundreds of testimonials on the Internet of parents affirming that "my child was healthy and happy until he was vaccinated"³. The Amish widely avoid vaccines and have an autism rate 73 times lower than average.⁴ Dr. Toni Bark affirms that of hundreds of unvaccinated patients:⁵ ***"I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis—none of these ... the kids with chronic illness are the kids who were vaccinated."*** All this is irrefutable evidence, which by the mathematical laws of probability **cannot be coincidence**, as doctors are prone to claim.

Factors in vaccine damage: Excellent general health and nutrition of a child is very important because it makes him more able to defend against and eliminate the toxins. For example a sick child has low resistance and the toxins could do much more harm.

Most flu shots contain mercury and most

childhood shots contain aluminum. A dangerous synergism is **multiple vaccines at a time** since mercury and aluminum are much more toxic together than either alone⁶. It is very logical that injected neurotoxins would cause autism and neurological disorders.

Mercury and the **environmental toxin** lead together are 100 times more toxic than either alone⁷, and similarly for cadmium, arsenic, fluoride, pesticides and some other toxins.

There are surely **genetic and individual factors** which make for greater *susceptibility*, but to put the blame on such susceptibilities is like blaming a bridge which collapsed under gross overload beyond design limits. This is illogical and were these susceptibilities the cause, our ancestors throughout history would have suffered the same rates of autism and neurological damage as now.

A 6-month-old can receive **19.5 times the safe amount**⁸ of mercury from a flu shot. Since dose is not adjusted for body weight, a 3-year old receives **11 times** the concentration as a 300 pound man.

All these factors are **very important** and not obvious, so it would appear to the casual observer that vaccine damage occurs randomly, like Russian roulette. However, knowledge of these factors should be very useful in reducing the risk if one chooses to vaccinate.

Specific Problems: Sudden Infant Death

Is the bridge to blame?

Syndrome (SIDS) occurs most frequently between 2 and 4 months of age, just when a baby is receiving his first battery of vaccines, certainly not a coincidence⁹.

Autism was unknown before 1943, but in 1980 1 in 10,000 children were autistic, and now it is 1 in 50¹⁰. But this is only the tip of the iceberg. **17% are now developmentally disabled**¹¹ and **27% have chronic disease and disorders!**¹² I believe most are harmed at least sub-clinically.

Rarely a neurologically damaged child is a near genius in some very narrow way, though he is obviously abnormal in many other ways¹³. This indicates that damage is likely concentrated in selected areas of the brain, but other parts can remain essentially undamaged. What are the **social implications** of this?

When one ingests alcohol or narcotics, generally the higher mental capacities, such as

good judgment, inhibitions, conscience, etc. are the first to be impaired. I would suggest that vaccine damage tends to do the same, but on a more permanent basis. Especially common is no speech or impaired speech. It is not uncommon to observe “normal” persons with symptoms of sub-clinical damage.

Intelligence is highly susceptible, and this would help account for declining average IQs¹⁴. Since boys are about 4 times more prone to vaccine damage than girls, this would logically account for the declining ratio of men vs. women college graduates¹⁵.

If sight centers of the brain were damaged, it would cause things like dyslexia. If the capacity for giving and receiving love were damaged, the person could easily be socially maladjusted. If the **conscience** were damaged, the person could easily have criminal tendencies. Could vaccines be at the root of many social ills of our time. I believe yes.

Vaccine damage can send you to **prison** if it is falsely judged to be child abuse.^{16,17}

Why would they do this? Money of course is the great driving force of it all, but I am sure the vast majority of participants are simply trying to do good and earn a living, honestly believing vaccines are beneficial. But by the **Georgia Guidestones**:¹⁸ “*Main-
tain humanity under 500,000,000 in perpet-
ual balance with nature*”. **Elimination of**

6.5 billion of us will happen only by purposeful action.

For **Protection** see “Avoiding Vaccine Damage”¹⁹ Good vaccine websites: nvic.org, vactruth.com, childhoodshots.com, ageof-autism.com. Good health: mercola.com, naturalnews.com. **If your child is already damaged, see cdautism.org.**

There can be little hope in the world system, but there can be very good news for you personally. The salvation of your eternal soul is a personal matter between you and God and does not depend on rituals, traditions, human effort, or belonging to any church, religion or organization: “*For by grace you have been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works...*” Ephesians 2:8-9 No matter what kind of person you are or what you have done: “*If we confess our sins, He is faithful and righteous to forgive us our sins and to cleanse us from all unrighteousness.*” 1 John 1:9 Pray today to put your faith in Jesus Christ alone: “*For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life.*” John 3:16 Then study the Bible to live in obedience to God: “*...if anyone is in Christ, he is a new creature; the old things passed away; behold, new things have come.*” 2 Corinthians 5:17
