

Why the fanatic promotion of The HPV Vaccine?¹

HarbingersOfTheApocalypse.com/p

According to drugs.com: “Gardasil is used to prevent genital warts and cervical/vaginal/anal cancers caused by human papillomavirus (HPV) types 6, 11, 16, and 18 in...women ages 9 through 26...”²

According to mercola.com: “But...the HPV vaccine only protects against two strains of HPV associated with cancer (HPV-16 and HPV-18³), but there are MORE THAN 100 different strains of HPV in all, and about 15 of them are known to potentially cause cancer IF the infection persists. In more than 90 percent of all cases, however, the infection resolves on its own and does not lead to any health complications.

“Deadly blood clots, acute respiratory failure, cardiac arrest and “sudden death due to unknown causes” have all been reported to occur in girls and women shortly after they’ve received the Gardasil vaccine, however. ...let’s not forget that the HPV vaccine has not yet been PROVEN to actually prevent any kind of cancer.

“The Gardasil vaccine has already been linked to 100 reports of death, (www.MedAlerts.org) as well as more than 22,000 reports of other serious side effects, ...such as Guillain-Barre syndrome. There

are 700 reported cases of permanent disability as a result of the vaccine.”⁴

Other **strange and absurd facts**⁵ are: 1) HPV vaccines are not for existing infections⁶, 2) The rate of serious adverse events is greater than the incidence rate of cervical cancer.⁷, 3) 4 out of 5 women with cervical cancer are in developing countries, 4) Types 16 and 18, were present in only 1.5% and 0.8%” of cancer cases, so they only claim to protect extremely few women, 5) Cervical cancer is exceptionally rare in women under age 21, 6) The risk of cancer increases dramatically as one ages, 7) It is not known if the effect of the vaccine lasts more than 6 years, 8) The incidence of cervical cancer in the U.S. is so low that with continued PAP screening it will not be lowered, 9) In clinical studies, a placebo is supposed to have no effect, but they used a highly toxic “placebo” (with aluminum) apparently to make the medicine look good by comparison, 10) No efficacy trials in girls under 15 years, but still indicated for them, 11) Not evaluated for carcinogenicity⁸, and others.

In 2007, Governor Perry of Texas decreed that girls entering the sixth grade be vaccinated with Gardasil (later revoked by the Texas Legislature). California recently passed legislation for children as young as 12 to receive the HPV vaccine without parental knowledge or consent.

In view of the grave problems and highly questionable benefits, why the fanatic and tenacious promotion. Certainly the about \$360 per 3 shots is a huge motivational factor, and I expect treatment of the resultant problems produces even more revenue.

But, there is so much here that does not make sense that one must look for **hidden agendas**, found in for example the Georgia Guidestones⁹: “Maintain humanity under 500,000,000 in perpetual balance with nature.” They are advocating eliminating about 7 billion, which **will not happen without purposeful action**. Many ways of population reduction are now in progress, and vaccines seem one of the most potent.

The **HPV vaccine is remarkably similar to a vaccine patent for sterilizing mammals**¹⁰ as follows: 1) Three shots, at about 2-month intervals. 2) Has fertility impairing polysorbate-80. 3) Has fertility impairing squalene oil. 4) The HPV vaccine contains an unidentified protein which could be the antigen from pig ovaries of the patent, “which is effective in impairing fertility in animals, preferably carnivores”.

The similarities are highly suspicious, especially with the absurdities and in the context of world leaders' stated goals **and actions** to reduce population. Can there be any other logical explanation? You would expect anything designed to sterilize a

person to be highly toxic, hence the high rate of induced injuries. This would be proven if the unknown protein in the HPV vaccine were identified as the antigen of the patent. Women have been reported with all their eggs dead^{11,12} following the HPV vaccine, and sufficient cases will also become proof.

Other toxins in the vaccine: 1) Genetically modified HPV DNA, effect unknown, 2) Aluminum, highly toxic to nerves, 3) Sodium borate, a dangerous poison, 4) L-Histidine, causes allergies, 5) MSG, excitotoxic to nerves, etc. So, the inherent toxicity of the HPV vaccine will likely cause long-term health problems, and shorter lifespans.

The **flu and other vaccines** contain Polysorbate-80, known to impair fertility. Yearly flu shots from six months to 18 years age are strongly urged, so by child-bearing age one's fertility could be seriously impaired or eliminated, just by the flu vaccine alone over time.

If you have already received the HPV vaccine, it may not be hopeless. It is probably designed to reduce fertility by only a percentage, and only sterilize fully in some cases. It may also be designed to depend on the flu and other vaccines to finish the job later. If I valued my health and fertility, I would accept no more vaccines, and would maximize my health studying and applying

I am not a doctor, so nothing here is medical advice, but are my personal beliefs based on the evidence I have studied. Study the evidence and **think for yourself**. A wise decision would be based on hard evidence only, and **if in doubt, play it safe**.

There is only one unfailing protection from the coming evils. The salvation of your eternal soul is a personal matter between you and God and does not depend on ritual, traditions, human effort or belonging to any church, religion or organization: *“For by grace you have been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works...”* Ephesians 2:8-9 No matter what kind of person you are or what you have done: *“If we confess our sins, He is faithful and righteous to forgive us our sins and to cleanse us from all unrighteousness.”* 1 John 1:9 Pray today to put your faith in Jesus Christ alone: *“For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life.”* John 3:16 Then study the Bible to live in obedience to God: *“...if anyone is in Christ, he is a new creature; the old things passed away; behold, new things have come.”* 2 Cor. 5:17
