

Avoiding Vaccine Damage

The US "Vaccine Court" has awarded more than **\$4 billion**,² which is likely only a small fraction of what is really deserved since many severe cases have been denied and many awards have been insufficient, often after an arduous process³.

Autism was unknown among the Amish until they started vaccinating their children⁴ Dr. Toni Bark affirms that of hundreds of unvaccinated patients:⁵ ***"I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis-none of these ... the kids with chronic illness are the kids who were vaccinated."*** This is irrefutable evidence against vaccines and by the mathematical laws of probability **cannot be coincidence**.

Hundreds of testimonials by parents say their child was healthy and happy, but shortly after vaccination suffered great damage. The large number of cases surely shows causality since vaccine toxins are the only logical explanation for the epidemic of autism.

Vaccine defenders claim *"coincidence is no proof of causality"*⁶, but as illustrated above coincidence can be evaluated only with reference to frequency and probabilities. **They contradict themselves** because they accept

that smoking causes lung cancer since they coincide sufficiently. Dr. Bark's and parents' experience is far more than sufficient.

The graphs clearly show that vaccines added nothing to the historical decline of these diseases, and it even appears the diphtheria vaccine made it slightly worse⁷. It is similar for typhoid fever, measles, whooping cough, and polio⁸. So, vaccines don't get the credit⁹.

Vaccines are deemed effective by production of antibodies, not by comparing disease rates in vaccinated persons, so clinical evidence of effectiveness is lacking¹⁰.

A low-weight 6-month-old boy can receive **19.5 times the safe amount**¹¹ of mercury from a flu shot. Since dose is not adjusted for body weight, a 3-year old receives **11 times** the concentration as a 300 pound man. Now instead of mercury, a two-month old baby receives 1,225µg of **neurotoxic aluminum, 50 times the safe level**¹² and autism continues unabated. What rational person can say this is not dangerous?

A newly discovered factor is that **glyphosate**¹³ (Roundup), which increasingly contaminates food, reduces the body's ability to eliminate toxins, rendering one much more susceptible to vaccine damage.

Money of course is the great driving force of it all, but I am sure the vast majority of participants are simply trying to do good and earn a living, honestly believing vaccines are beneficial. But by the **Georgia Guidestones**: *"Maintain humanity under 500,000,000 in perpetual balance with nature"*. **Elimination of 6.5 billion of us will happen only by purposeful action.**

I am not a doctor so nothing here is medical advice, but are my personal beliefs based on evidence I have studied.

For **protection** I would:^{14, 15} 1) Obtain an exemption to give few or no vaccines.¹⁶ 2) Why is one child is harmed and another apparently not by the same vaccine? Very important is the general state of nutrition and health. For example, lack of vitamin D₃ makes a child more susceptible to autism,¹⁷ and those with dark skin get less D₃ from sun exposure. Daily take *high-quality* nutritional supplements¹⁸ that do not contain iron. (cheap ones won't do much good). 3) Before and after vaccination, take 1000mg or more of vitamin C, plus omega-3 fish oil, antioxidants such as vitamin E, astaxanthin, curcumin & quercetin, and avoid immune-stimulating supplements, all to reduce the harmful reaction of the immune system to vaccine adjuvants. 4) Avoid oils that increase inflammation such as corn, safflower, sunflower, soybean, canola and peanut oils. 5) Always

insist on single-dose vials, which have less preservative (mercury, etc.), 6) Accept only one shot per visit to the doctor and try to wait at least a month between vaccinations, to not overload the child's detoxification system. Combined toxins can be far more toxic than each separately, such as mercury and aluminum by 100x. 7) Never accept a vaccine when the child is sick as his resistance will be low, 8) Be extra careful the younger or lower-weight the child, as the concentration of toxins will be higher, 9), **No Tylenol** or equivalent, as it reduces detoxification, 10) Accept only shots required.

Detoxification¹⁹ is of utmost importance, and **continued deterioration can be expected if toxins remain.** Glutathione is the body's most important anti-oxidant and detoxifier²⁰, and toxins can deplete it severely. It can be increased by supplementing with N-acetyl cysteine²¹ and antioxidants such as alpha-lipoic acid²², vitamins C & E, astaxanthin²³, grape seed extract, etc. Search "autism glutathione" for more details, and "autism chelation", another method for detoxifying heavy metals. ToxDetox²⁴ supplements combine glutathione and chelation and could be very effective. **If your child is already damaged**, see cdautism.org.

The **salvation of your soul** is personal between you and God and does not depend on rites, clerics, traditions, good works, or be-

longing to any church or religion: "*For it is by grace you have been saved, through faith, and this is not from yourselves, it is the gift of God, not by works...*" [Eph 2:8-9](#) No matter what kind of person you are or what you have done: "*If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all unrighteousness.*" [1 John 1:9](#) Pray today to put your faith in Jesus Christ alone: "*For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life.*" [John 3:16](#) Then study the Bible to live pleasing to God: "...if anyone is in Christ, the new creation has come: The old has gone, the new is here!" [2 Cor 5:17](#)

Please pray like this with all sincerity: "Dear Lord Jesus, I confess I am a sinner, and I ask for your forgiveness. I believe you died to forgive my sins and rose from the dead. I trust and follow you as my Lord and Savior. Please guide my life and help me to do your will. In the name of my Lord Jesus Christ, Amen."
