

Hope for Autism and Other Vaccine Damage¹

Autism was unknown before 1943, but in 1980 the rate was 1 in 10,000, and now it is 1 in 50². But this is only the tip of the iceberg. 17% of children are developmentally disabled³, and 27% have chronic disease and disorders⁴. **Everything has a cause!**

The tobacco industry denied that smoking caused cancer. Similarly they claim “the cause of autism is unknown”⁵, but it seems more likely they are trying to place blame elsewhere. It is absurd to blame genetics⁶ or prenatal factors because our forefathers would have suffered the same, and it would not have increased 16% per year since 1980. They also minimize the seriousness with absurdities like “autism is not a tragedy.”

It is true that genetics and other factors can affect *susceptibility* but that is not *causality*. There are many toxic chemicals which could cause it, but vaccines are the only routine, frequent and intense source of such toxins.

Dr. Toni Bark affirms that of hundreds of unvaccinated patients:⁷ **“I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis-none of these ...”**. **“...the kids with chronic illness are the kids who were vaccinated.”** Such huge differences are irrefutable evidence against vaccines and **cannot be coincidence.**

Conformence of deceit in society: Government officials, school principals, medical personnel, and the like, almost always emphatically support vaccines though very few would have examined the evidence for themselves. **They are paid to do so** though they may think not. I suggest they openly oppose vaccines, even giving sound scientific reasons, and not back down, and see if their paycheck does not stop immediately. Not to be too hard on them, if I were personally at risk, I could easily do the same.

Direct **Causes of Autism** and learning disabilities, etc. would be immediate damage to the brain caused by the mercury, aluminum and other toxins in the vaccines. Such may manifest in immediate fever, lethargy, continuous screaming, coma, convulsions and the like, and probably in all cases some damage persists even if the child appears to recover fully. Direct causes can also have progressive effects over time.

Indirect causes would first damage the child so that he would become susceptible to the maladies typical of autism, such as viruses, bacteria, parasites, yeast, heavy metals, inflammation and food allergies. Then, as these factors take hold and do their own damage, the brain, nervous and other systems would degenerate over time.

I am glad I found more hope for autism than I thought. It is not expensive and

should be doable at home. **I am not a doctor, so nothing here is medical advice.** There is much opposition to these ideas, so **you must do your own thorough research** so that you can be responsible for your own actions and understand the risks, benefits and safe ways to proceed, and consult with those who have succeeded. What matters is that your child gets better and hopefully is cured.

Detoxification⁸ is of utmost importance, and **little progress can be expected if the toxins remain.** Glutathione is the body's most important anti-oxidant and detoxifier⁹. It attaches to toxins such as mercury, which the liver eliminates via the feces. Toxins deplete glutathione which allows more damage, which can cause even lower levels, a vicious cycle. Autistic persons typically have very low levels. It can be increased by supplementing with N-acetyl cysteine¹⁰ and antioxidants such as alpha-lipoic acid¹¹, vitamins C and E, astaxanthin¹², grape seed extract, etc. Search “autism glutathione” for more details. Search also “autism chelation”, another method for eliminating heavy metals from the body. ToxDetox¹³ suppositories combine glutathione and chelation, and could be very effective.

1. So after thorough research I would give my child the nutrients just mentioned plus **high quality vitamin and mineral supplements** (cheap artificial ones won't do much

good). This will give his system resources needed to defend against the toxins and diseases. In fact I believe the state of nutrition is a major factor why one child is damaged and another is apparently unharmed. This product¹⁴ was a big help in three cases in my family. One grandchild who was very damaged showed significant improvement over several weeks. A nephew and another grandchild did not talk until 5 years old, but both started talking shortly after the vitamins, and both seem quite normal now, though not good students.

2. A vaccine damaged child typically has intestinal flora dominated by bad bacteria which give off their own toxins. This is made worse by the **glyphosate**¹⁵ and other contaminants in food which suppress and kill the good bacteria. I would give my child **probiotics**¹⁶ to provide good bacteria to crowd out the bad. It is claimed that 80% of your immune system is in the good bacteria of your intestines.¹⁷

3. **Chlorine dioxide**¹⁸ is relatively new for the treatment of autism and of this writing **557 children are cured**. This probably works for brain cells which have become non-functional, but have not died. Therefore it should also be beneficial for things like retardation, learning disabilities, impaired motor skills, hyperactivity, epilepsy, etc.

Most important of all, the **salvation of your**

soul is personal between you and God and does not depend on rites, clerics, traditions, good works, or belonging to any church or religion: *"For it is by grace you have been saved, through faith, and this is not from yourselves, it is the gift of God, not by works..."* [Eph 2:8-9](#) No matter what kind of person you are or what you have done: *"If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all unrighteousness."* [1 John 1:9](#) Pray today to put your faith in Jesus Christ alone: *"For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life."* [John 3:16](#) Then study the Bible to live pleasing to God: *"...if anyone is in Christ, the new creation has come: The old has gone, the new is here!"* [2 Cor 5:17](#)

Please pray like this with all sincerity:
"Dear Lord Jesus, I confess I am a sinner, and I ask for your forgiveness. I believe you died to forgive my sins and rose from the dead. I trust and follow you as my Lord and Savior. Please guide my life and help me to do your will. In the name of my Lord Jesus Christ, Amen."
