

What Every Parent Needs to Know

¹ Autism was unknown before 1943, but in 1980 1 in 10,000 children were autistic, and now it is 1 in 50². But this is only the tip of the iceberg. **17% are now developmentally disabled³ and 27% have chronic disease and disorders!⁴** It is not uncommon to encounter “normal” persons with symptoms of brain damage. Even if your child seems normal, he could be damaged. To protect your child, read on.

The science of **vaccines** is certainly valid when properly applied, but in evil hands can you imagine a more fearsome weapon?

1) The Philippine Supreme Court ruled that UNICEF sterilized⁵ 3 million women with vaccines without their knowledge, 2) The same was done in Africa⁶, 3) Baxter sent H1N1 vaccine contaminated with live bird flu virus to 18 countries.⁷ 4) Strong evidence is that vaccines cause brain damage and autism⁸.

14 babies in Argentina died right after participating in a vaccine trial⁹, and many children were paralyzed after vaccines in Chad¹⁰. **They denied the vaccines were the cause.**

I am sure the vast majority of participants are simply trying to do good and earn a living, honestly believing vaccines are beneficial. But the **Georgia Guidestones¹¹** state:

“Maintain humanity under 500,000,000 in perpetual balance with nature.”, **The elimination of 6.5 billion of us will happen only by decision.**

For the HPV vaccine (Guardasil, etc., to prevent cervical cancer), serious adverse events exceed the rate of cervical cancer, and over 100 deaths have been reported after it¹². Moreover, it is very similar to a patent for sterilizing mammals¹³ and women have been reported with all their eggs dead¹⁴ following it.

They claim “the cause of autism is unknown”, but autism was unknown among the Amish before vaccinating their children¹⁵. There are 100's of testimonies on the Internet of parents affirming that their child was healthy and happy until vaccinated. Dr. Toni Bark affirms of hundreds of unvaccinated patients:¹⁶ **“I don't have one child who was not vaccinated who also has asthma, food allergies, or Asperger's or autism, or Crohn's or ulcerative colitis—none of these... the kids with chronic illness are the kids who were vaccinated.”** Such huge differences are irrefutable evidence against vaccines and by the mathematical theory of probability **cannot be coincidence.**

What could be worse than the tragedy of autism, or any brain impairment, such as learning and emotional disabilities, mental

Court ruled:

Disabled by the MMR Vaccine¹⁸
**“Behold, children are a gift of the Lord
... How blessed is the man whose
quiver is full of them” Psalms 127:3-5
Is this the blessing God intended?**

retardation, hyperactivity, visual and hearing loss, epilepsy, etc., depending on the severity and part of the brain damaged. The 40-plus doses recommended by the CDC are most certainly excessive, and if they were to damage to your child, then surely the risk of the diseases would have been better.

Mercury is extremely toxic (more than lead), especially to the nerves and brain. The EPA says 0.1µg of mercury per kg of body weight is the maximum daily safe

amount¹⁸. A 0.25ml multi-dose Fluzone shot contains 12.5µg of mercury¹⁹, so an underweight 3 -year old receives at least **19.5 times the safe amount**, or worse for multiple shots, and a **3-year old child receives 11 times the concentration as a 300 pound man**. What rational person can say this is not dangerous?

Mercury is now much reduced in many vaccines, so instead, a two-month old baby receives 1,225µg of **neurotoxic aluminum**, **50 times the safe level**²⁰ and autism continues unabated.

A newly discovered contributing factor is that **glyphosate**²¹ (Roundup), which increasingly contaminates food, reduces the body's ability to eliminate toxins, rendering one much more susceptible to vaccine damage.

I am not a doctor so nothing in this article can be considered medical advice, but if I had a child see here²² what I would do to protect him, and get a **vaccine exemption**²³.

Study the evidence and think for yourself. Then protect yourself and yours and warn others, as I am sure it will not be stopped. Good vaccine websites: childhoodshots.com, ageofautism.com, marytocco.com, nvc.org, vactruth.com. Good health: mercola.com, naturalnews.com. If your child is already damaged, see cdautism.org.

There can be little hope in the world system, but most important the **salvation of your soul** is personal between you and God and does not depend on rites, clerics, traditions, good works, or belonging to any church or religion: "*For it is by grace you have been saved, through faith, and this is not from yourselves, it is the gift of God, not by works...*" Eph 2:8-9 No matter what kind of person you are or what you have done: "*If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all unrighteousness.*" 1 John 1:9 Pray today to put your faith in Jesus Christ alone: "*For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life.*" John 3:16 Then study the Bible to live pleasing to God: "...if anyone is in Christ, the new creation has come: The old has gone, the new is here!" 2 Cor 5:17

Please pray like this with all sincerity:

"Dear Lord Jesus, I confess I am a sinner, and I ask for your forgiveness. I believe you died to forgive my sins and rose from the dead. I trust and follow you as my Lord and Savior. Please guide my life and help me to do your will. In the name of my Lord Jesus Christ, Amen."
